# Global Reimbursements powered by Wise

## Modernize your payments program

Your organization may rely heavily on traditional banks to manage its international expense reimbursements. This often results in high transfer fees, inflated exchange rates, and consistently slow transfer times. A simple \$2,000 transaction via SWIFT, for example, could cost \$60 and take a week to reach an already impatient employee's account.

As part of the Emburse Pay platform, Global Reimbursements powered by Wise, provides a modern alternative to a pricey, glacial process. Transparent fees and no exchange rate mark-ups can save your business over 60% of the overall international transfer cost. Turnaround times are slashed, too, averaging 1-2 business days for delivery of funds.

### MODERN CONVENIENCE

Process thousands of expense reimbursements from one elegant platform and make payments to recipients around the world.

### TRANSPARENT FEES

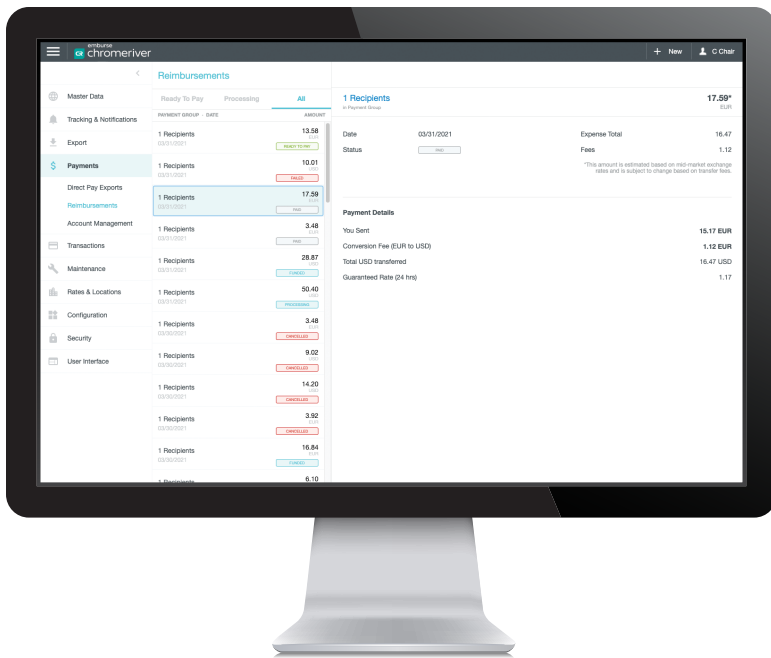

Know your costs upfront and easily track payments from a single, easy-to-add management platform.

### PROMPT REIMBURSEMENTS

Wherever they are in the world, your employees get paid faster and in their local currency.

## Convert funds with confidence

Global Reimbursements allows your team to easily streamline and manage multi-currency payments from one elegant platform. You can quickly reimburse employees in their local currency while syncing with your ERP automatically.

- Gain complete visibility into every payment from in-progress to completed
- Mitigate risk through automation and the highest security standards
- Eliminate time-consuming tasks and take advantage of the best exchange rates
- Ensure everyone is paid the right amount, on time, and in their local currency

**Reimbursing our employees with Global Reimbursements will give us considerable cost savings, as well as supporting our employees by getting funds back in their accounts up to 90% faster than before.**
